

Valentines Rally. Fishcross

What a tale is attached to this rally. Due to a sudden bereavement Billy had to take over the rally from Val and Robert Brownlee, up he goes to Cumbernauld to pick up all the equipment for the rally on the Tuesday night, almost home and car trouble started! Drew into the side, can't see anything, start again, too late to muck about send for Greenflag, Hurray! Home and dry.

Next day car won't start, suspect a gasket! You guessed it right, yes it was.
Panic stations, rally to run. No car, phone a friend, problem solved.

Rally went well. Val had done all her preparation well and with the help of Billy and Helen Murray the rally got off to a very windy start. Tried twice to get the awning up! No chance. (I nearly did a Mary Poppins).

15 vans attended and we had a good night up at the Ochil View a local inn, food is brilliant.

Thanks to Billy and Helen for their help and Alastair Hadley for getting us there and back.

Still got car trouble. Haven't got one. Getting a new one soon. Anybody got an old one laying about with a towbar they don't need for a month.

See the Chairman
